Concrete As Art

Bomanite is the original cast-in-place architectural concrete, and after five decades, still the finest custom paving and flooring product in its class. But it is far more than just imprinted concrete. Far more than an innovative process. It is an expression of lifestyle. Of imagination. Of art.

Bomanite integrates both personality and product, crafting solutions to bring your ideas to life...rather than forcing your ideas to conform to a limited product line. At Bomanite, we believe your creativity should never be compromised.

What Makes Us Different?

Long before a single square foot of concrete is colored or imprinted, Bomanite begins with people. From the property owners and designers who possess the vision, to the trained technicians who manufacture the tools and materials, to the experienced licensed professionals who perform the installations...Bomanite is driven as much by quality people as we are by our quality product.

All Bomanite Franchise Partners are given the most extensive ongoing technical education program in the industry. And it shows in every installation – a reflection of the long-standing Bomanite tradition of innovation, service and expertise.

Beyond The Back Yard

If you think Bomanite is just for residential applications like pool decks, patios, walkways and entries...think again. Rugged, long-lasting Bomanite is also ideal for commercial and municipal applications. Not only does Bomanite hold up under heavy traffic, it can add extraordinary beauty to an ordinary public thoroughfare.

Bomanite is perfect for a wide range of projects including lobbies, courtyards, sidewalks, streets and medians. And that's just the beginning. Bomanite is also widely used in such major applications as shopping malls, hotels, theme parks, restaurants and other high-traffic projects.

When it comes to unmatched quality, inspired innovation, limitless versatility and a proven track record of success worldwide, Bomanite is the only name you need to know. The name the world trusts for a full range of cast-in-place architectural concrete applications, from small residential projects to major industrial installations and beyond.

Your Only Limit:

*Your Own
Imagination*

Today's Bomanite offers more choices and design flexibility than ever before, creating a virtually limitless palette of colors, textures and patterns to choose from. Bomanite currently features more than 100 patterns and an infinite variety of custom tooling options, giving you more creative freedom than ever before. Looking for a natural texture? Bomanite is available in textures from slate to granite,

limestone to sandstone, wood to used brick. Imagine the possibilities with Bomanite's limitless color, texture and pattern combinations. No wonder we say if you can dream it, you can do it with Bomanite.

Whether you're planning a residential patio, a commercial driveway or a municipal sidewalk, you can always count on Bomanite's enduring quality and craftsmanship. Contact your local Bomanite Franchise Partner today!
